-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION***Double Patenting***

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1,4,6,7,9,14-15 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3,5,6,10-11 of US. Patent No.6,939,352. They are not patentably distinct from each other because they recite the same subject matters as following: a medical device delivery system for therapeutically treating a patient, comprising: an inner shaft, a tubular outer sheath or outer shaft, a medical device within the outer sheath, a handle affixed to the inner shaft, a first and second independently movable actuator for adjusting the relative positions of the inner shaft and the outer sheath. As to claims 4,6,7,9,14-15 are not patentably distinct from each other because they are essentially the same as those in the cited Patent 6,939,352. *Furthermore, Claims 1-4,10-15 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-3,5-7 of U.S. Patent No.6,866,669.* They are not patentably distinct from each other because they recite the same subject matters as following: a medical device delivery system for therapeutically treating a patient, comprising: an inner shaft, a tubular outer sheath or outer

shaft, a medical device within the outer sheath, a handle, a first and second independently movable actuator for adjusting the relative positions of the inner shaft and the outer sheath, where the actuators provide a different amount of mechanical advantage between an input to one of the actuators by a physician, and where a locking member that releasably holds the outer sheath relative to the inner shaft. As to claims 2-4,10-15 are not patentably distinct from each other because they are essentially the same as those in the cited Patent 6,866,669.
